OSA-3245-63

26 JUN 1963

MEMORANDUM FOR THE RECORD

25X1A

SUBJECT: Dual-Staging Capability - [REDACTED]

25X1A

1. Attachment hereto sets forth the necessary augmentation of military personnel to achieve a dual-staging capability for [REDACTED]. It is estimated that the full complement will be available by November of 1963.

25X1A

2. However, assuming that a limited capability is desired before that time, it is felt that this can be achieved by augmenting [REDACTED] with 1 Flight Planner and 1 Ops Officer.

3. Although a Weather Officer is a requisite for a staging, experience has indicated that we have been able to achieve this capability from host base support. Likewise, we can call upon the Surgeon General to provide us with a Flight Surgeon when needed.

4. Assuming the validity of the assumptions set forth in the previous paragraph, we shall then exert every effort to achieve the earliest possible reporting date for 1 Flight Planner and 1 Ops Officer with the understanding that the targeted date for the other personnel will remain as November of 1963.
